

HOSPITAL ATTESTATION OF COMPLIANCE WITH HOSPITAL PARKING DIRECTIVE

TO: Ontario Health

FROM: [Esther Millar

[**President & CEO**

Listowel Memorial Hospital

Date: October 2, 2026

RE: September 1, 2025 – August 31, 2026 (**"the Applicable Period"**)

On behalf of the Listowel Memorial Hospital (the "Hospital"), I attest to the Hospital's compliance with the requirements set out in the Hospital Parking Directive, as applicable to this Hospital, during this Applicable Period.

In making this attestation, I have exercised care and diligence that would reasonably be expected of a person in my position in these circumstances, including making inquiries of Hospital staff that have knowledge of these matters.

I further certify that any material exceptions to this attestation, as well as the steps that the Hospital will take to meet unmet requirements, and the timeframe for doing so, are fully and accurately documented in the attached **Schedule A**.

Dated at Wingham, Ontario this second day of October, 2026

A handwritten signature in blue ink, appearing to read 'Esther Millar'.

Parking Rate

The Hospital increased its parking rate from \$2.00 to \$3.00 during the Applicable Period. The previous \$2.00 rate had been maintained since at least 2019 without annual CPI adjustments, resulting in an accumulated CPI allowance over that period. However, the CPI-adjusted rate could not be practically implemented using the Hospital's existing parking payment equipment, as the equipment does not accept dimes or support the smaller incremental adjustments required.

Given the limitations of the existing equipment, the Hospital implemented a \$3.00 parking rate. Despite this adjustment, the Hospital continues to maintain a comparatively low parking rate, with affordability and accessibility for patients and visitors remaining an important consideration.

Action: When the Hospital's parking payment equipment is replaced or upgraded, the Hospital will ensure that the selected system provides sufficient flexibility in payment denominations and rate configuration to accommodate future CPI-based adjustments in accordance with the Hospital Parking Directive.

Timeframe: At the time of the next parking payment system replacement or upgrade.
